Merit Scholarship For Students In Need

---

MITHR merit scholarship is a project undertaken by a group of friends to support students in need for their education. We are not a registered organization but working as an independent team with single mind.

### **Our Vision**

To provide students with support to continue their education and encourage for a better future. We believe that they will, in turn, help other less fortunate students, in future.

### **Criteria for Selection**

In an academic year, four students will get benefit from this venture.

The completed application form has to be submitted to the group through the project coordinator.

The student will be notified if they get selected and the scholarships will be given in two installments based on the students' academic performance and attitude.

The final decision will be made by Team Mithr.

Note: Application forms will be issued on demand by contacting the project coordinator.

### **Follow-up Activities**

Occasional inquiries will be made by project coordinator to evaluate the academic progress of the students.

Students should maintain a minimum of 65% mark / B-Grade in all the subsequent exams to continue availing the Scholarship.

### **General Guidelines**

1. This merit scholarship should be used for educational purposes only (fees, books etc). We do not intend to sponsor any student but only support them through merit scholarship.
2. We provide equal opportunities for all the deserving students irrespective of caste, religion or gender.
3. The details of the students will be kept confidential.

*"We ourselves feel that what we are doing is just a drop in the ocean  
but the ocean would be less because of that missing drop."*
